

Press Release—for Immediate Publication

Three New Products from Schacht Spindle Company

The Lilli Loom—sturdy frame loom

Tapestry weaving is making a comeback! Adding dimension and color, it is THE way to decorate your walls. With plenty of texture and fringe, it is a fun, free form way to weave. Schacht's new **Lilli Loom** is an ideal size for on-the-go tapestry projects and more. With sturdy no-slip plastic teeth to keep warp threads in place that can be woven at either 6 or 12 ends per inch, the Lilli Loom offers multiple weaving options for a variety of projects. The 10" x 15" frame loom comes with a beater, stick shuttle, pick-up stick, shed stick and weaving needle. Pick your fiber and you are ready to let your creative juices flow! SRP \$59

Available end of August 2017

3-in-1 Magic Stick—your go-to tool

The right tool makes any job easier and what's better than a tool that is three tools in one? Schacht's new **3-in-1 Magic Stick** is a small hand beater, pick-up stick, and sewing stick with a hole large enough for roving. Handy for so many weaving jobs, whether on a tapestry, frame, or rigid heddle loom, the 3-in-1 Magic Stick is a must have tool for any weaver. SRP \$15 Available mid-August

Schacht Fringe Twister—smooth and easy

Your project is finished, yet you still have all the ends to deal with. Schacht's new **Fringe Twister** is a smooth operator. Comfortable for either right and left handed twisting, with replaceable clips, the Schacht Fringe Twister will make quick work of twisting up your ends for a beautiful finished project. SRP \$35

Coming fall 2017

It was time to add more versatility to our Wolf Pup looms. Like our other floor looms, we now have a double back beam for the Wolf Pups. This allows for even more functionality. Say you want to create a double weave fabric with different lengths, textures and even pleats, a **double back beam** allows you to do all that! SRP \$285

Now available

About Schacht: Schacht Spindle Company is a small, family owned manufacturer of quality weaving and spinning tools. Located in Boulder, Colorado, Schacht has been designing and making hand weaving and hand spinning equipment since 1969.
